REMARKS

It is respectfully submitted that the prior identified, cited references, do not disclose the instant invention as claimed. Applicant again respectfully requests that the rejection of the claims under 35 USC 102 and 103 be withdrawn in view of the prior-submitted remarks set forth above.

Examiner Interview Summary

Attorney for Applicant greatly appreciates Examiner Steven B. Wong's granting of an interview after the issuance of a final rejection. Attorney for Applicant respectfully proposed amending the claims to state that the ball lies directly on the wire. The Examiner stated that such an amendment to the claims and the specification would probably be considered as a new limitation and, accordingly, would require further consideration. Attorney for Applicant hereby files this RCE with the above-referenced amendments in concordance therewith. Attorney for applicant respectfully asserts the above-referenced amendments do not contain new matter. Review, consideration and amendment to the Application are each respectfully requested.

In view of the amendments and the prior-submitted remarks, reconsideration of the objections and rejections and allowance of the pending claims are each respectfully requested. A good faith effort has been made to place the present application in condition for allowance and publication and such actions are earnestly solicited. If there are any questions prior to allowance, and publication the Examiner is requested to contact the undersigned at the below referenced address.
